REMARKS/ARGUMENTS

The above-referenced application has been allowed. However, it has come to the Applicant's attention that, in preparing the application for printing, the Publications Branch has raised some objections to the specification and the drawings. Specifically, it has been noted that the body of the specification includes a graph and a photographic depiction, which should be properly presented as separate drawings outside the text of the specification.

In response, Applicants have submitted herewith a "New Sheet" of drawings showing the graph as Fig. 5 and the photographic depiction as Fig. 6. The specification has been amended accordingly to delete the graph and the photograph from the body of the text and to make reference to the new Figs. 5 and 6. No new matter has been added.

In view of the foregoing submission, it is believed that the objections raised by the Publications Branch have been overcome.

Respectfully submitted,
